

## Singing In The Rain pop up flashmob schedule: Friday 14 August 2020

Each performance lasts 5 minutes and will take place at the start of each 30 minute session. Following the performance residents and staff can have socially distanced conversations and dancing with the performers.

The dancers will be spaced 3 meters apart in a large open air space during the performance, with the umbrellas used in the performances offering an extra spacing measure. When travelling together or not performing extra precautionary measures will be taken such as wearing face masks. Face masks and hand sanitiser will be available to all participants. The residents will be spaced apart from each other when watching, and at a minimum of 3metres away from the performers. The centres will adhere to their own guidelines to keep residents safe.
